

Personal Care and Cosmetics

Tilley has been connecting its customers to the world’s premier ingredient suppliers since 1952.

Personal care products and cosmetics should promote health, not harm. That’s why our quality control standards and safety procedures are in place – so you know every ingredient added to your products meets or exceeds even the strictest safety guidelines.

The focus should be on running your business, not running around looking for quality ingredients. For everything related to ingredient sourcing, there’s Tilley Distribution.

If there’s an ingredient not listed in this document, reach out to your Tilley sales representative today for more assistance.
